

Dundee Solar Solutions

Innovating Solar Rack Solutions

www.dundeesolarsolutions.com

Presented By : Peter Davis

Who Are We?

Dundee Solar Solutions is a subsidiary of Dundee Manufacturing Company. In 2012 Dundee started selling parts to a new solar rack manufacture. Working together with there engineering team we were able to assist in establishing their product offering and help them grow into a multi-million-dollar company.

A combination of two decades of manufacturing expertise with a commitment to renewable energy.

Driving Innovation & Sustainability

Mission 1

Revolutionizing solar projects with innovative and durable solutions.

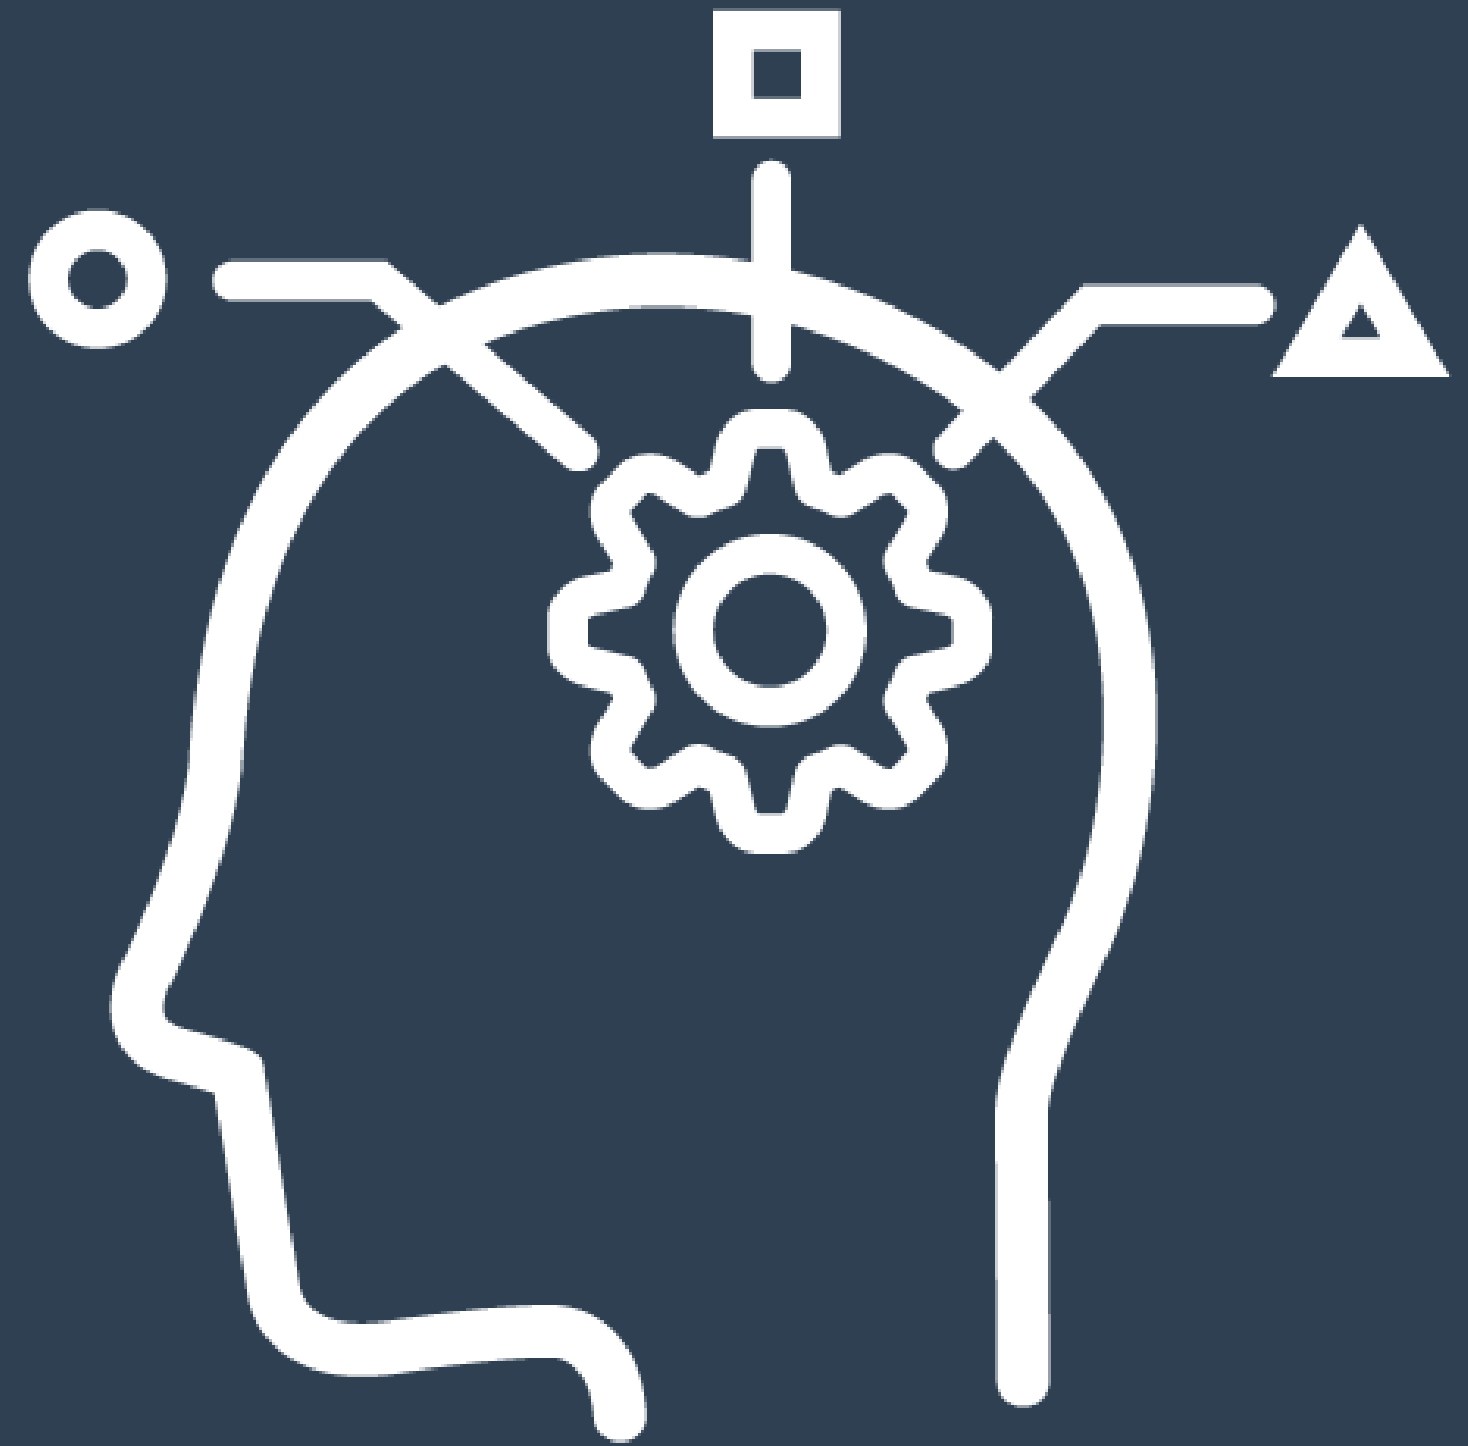

Mission 2

Focused on simplifying installation, reducing cost, and ensuring sustainability.

What We Do Best.

- Problem-Solving Expertise
Address unique mounting challenges
- Research and Development
Focused on innovation and materials science.
- High-Quality Manufacturing
Durable, reliable parts built to last.

Why Choose Dundee Solar Solutions?

Customer-Centric:

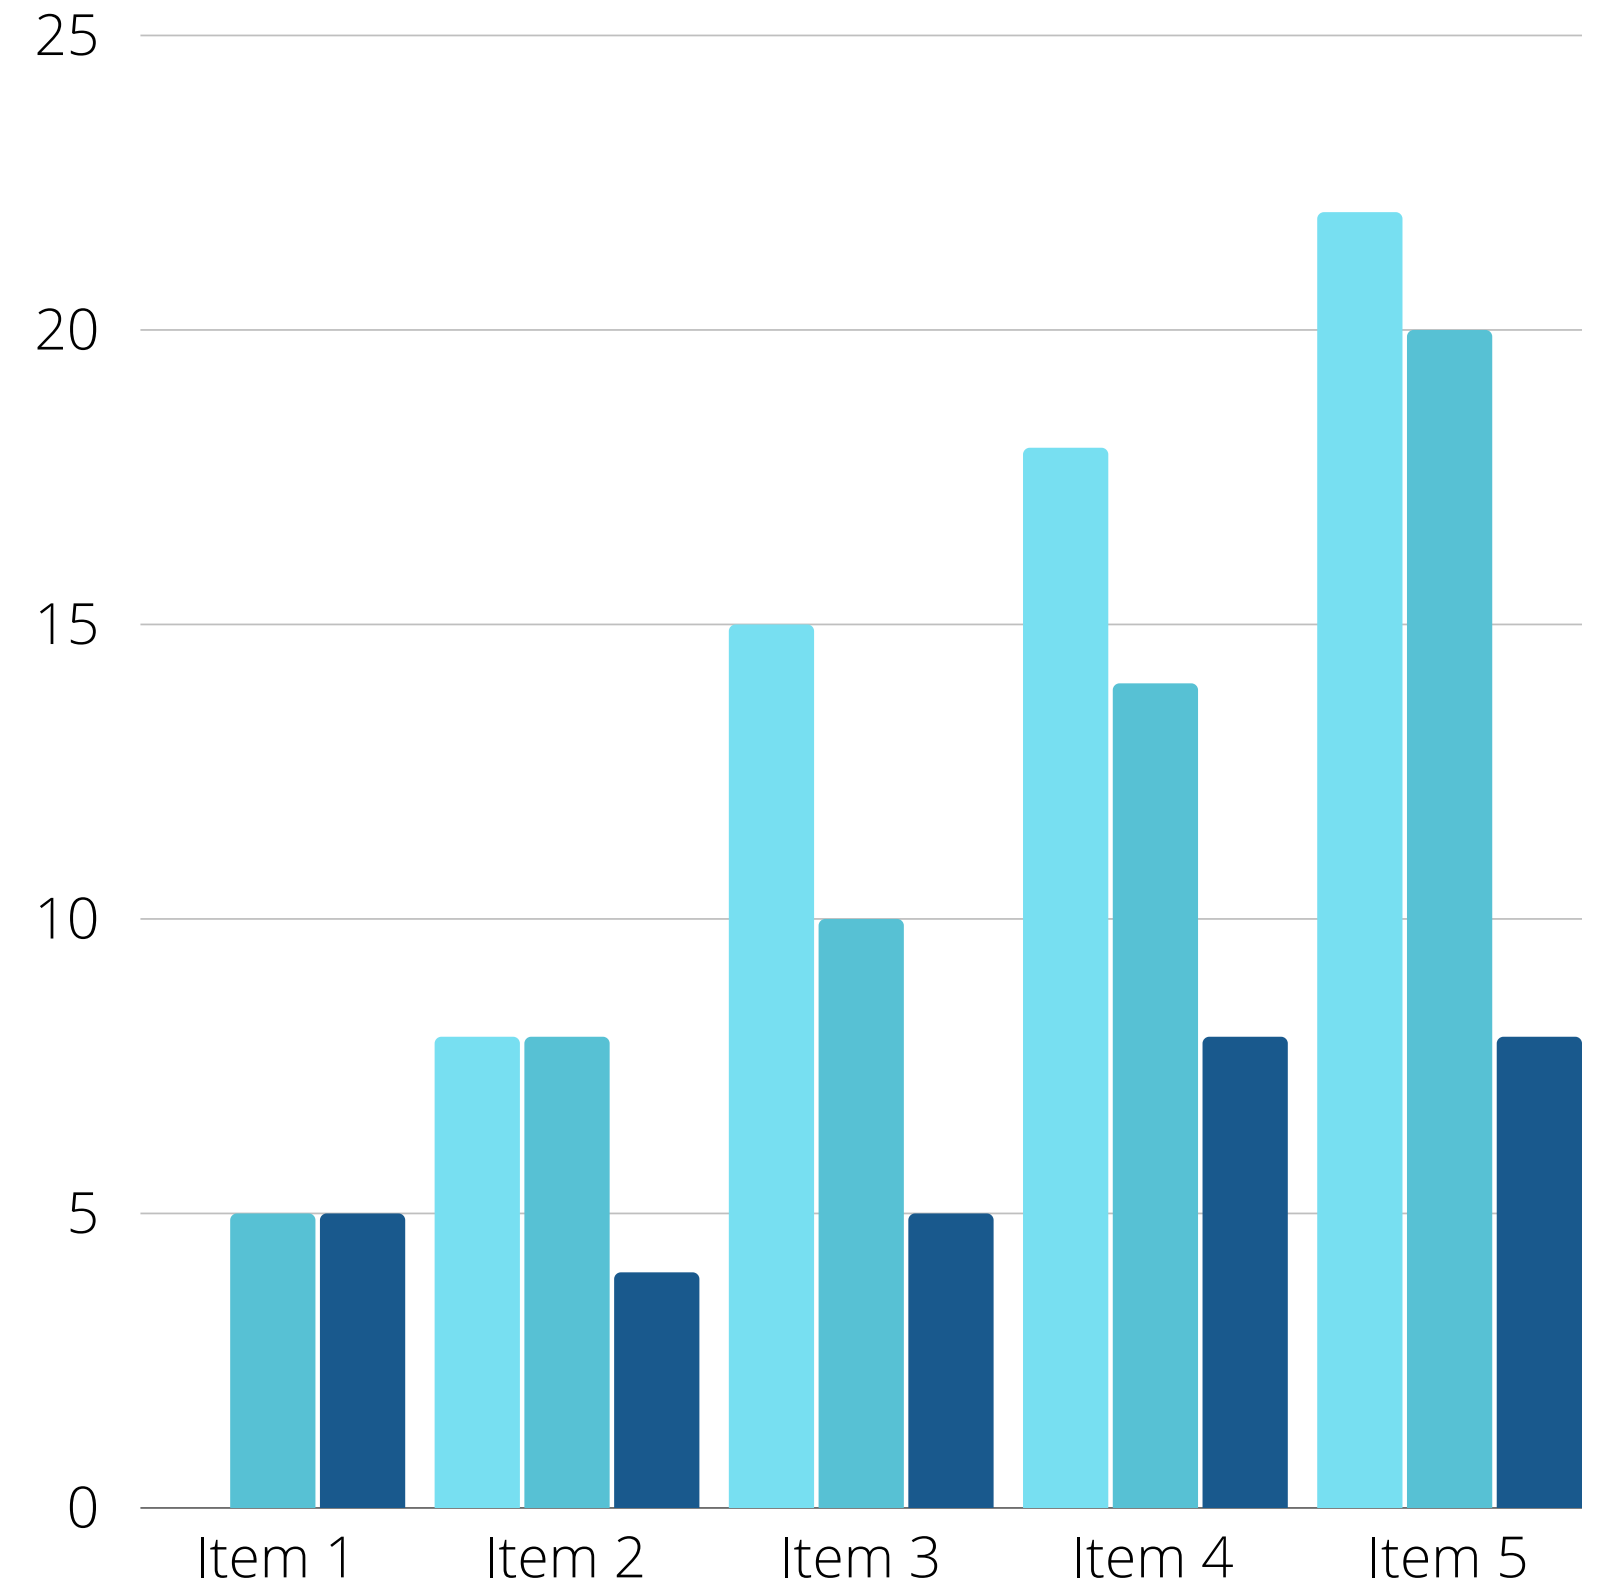

Tailored solutions for specific needs.

Innovative Designs:

Solving the most complex challenges.

Sustainability Commitment:

Promoting clean energy.

Our Products & Capabilities

Ground anchors

A magazine is a periodical publication, which can either be printed or published electronically.

Panel Clamps

A magazine is a periodical publication, which can either be printed or published electronically.

Custom Mounting Components

A magazine is a periodical publication, which can either be printed or published electronically.

How We Deliver Excellence

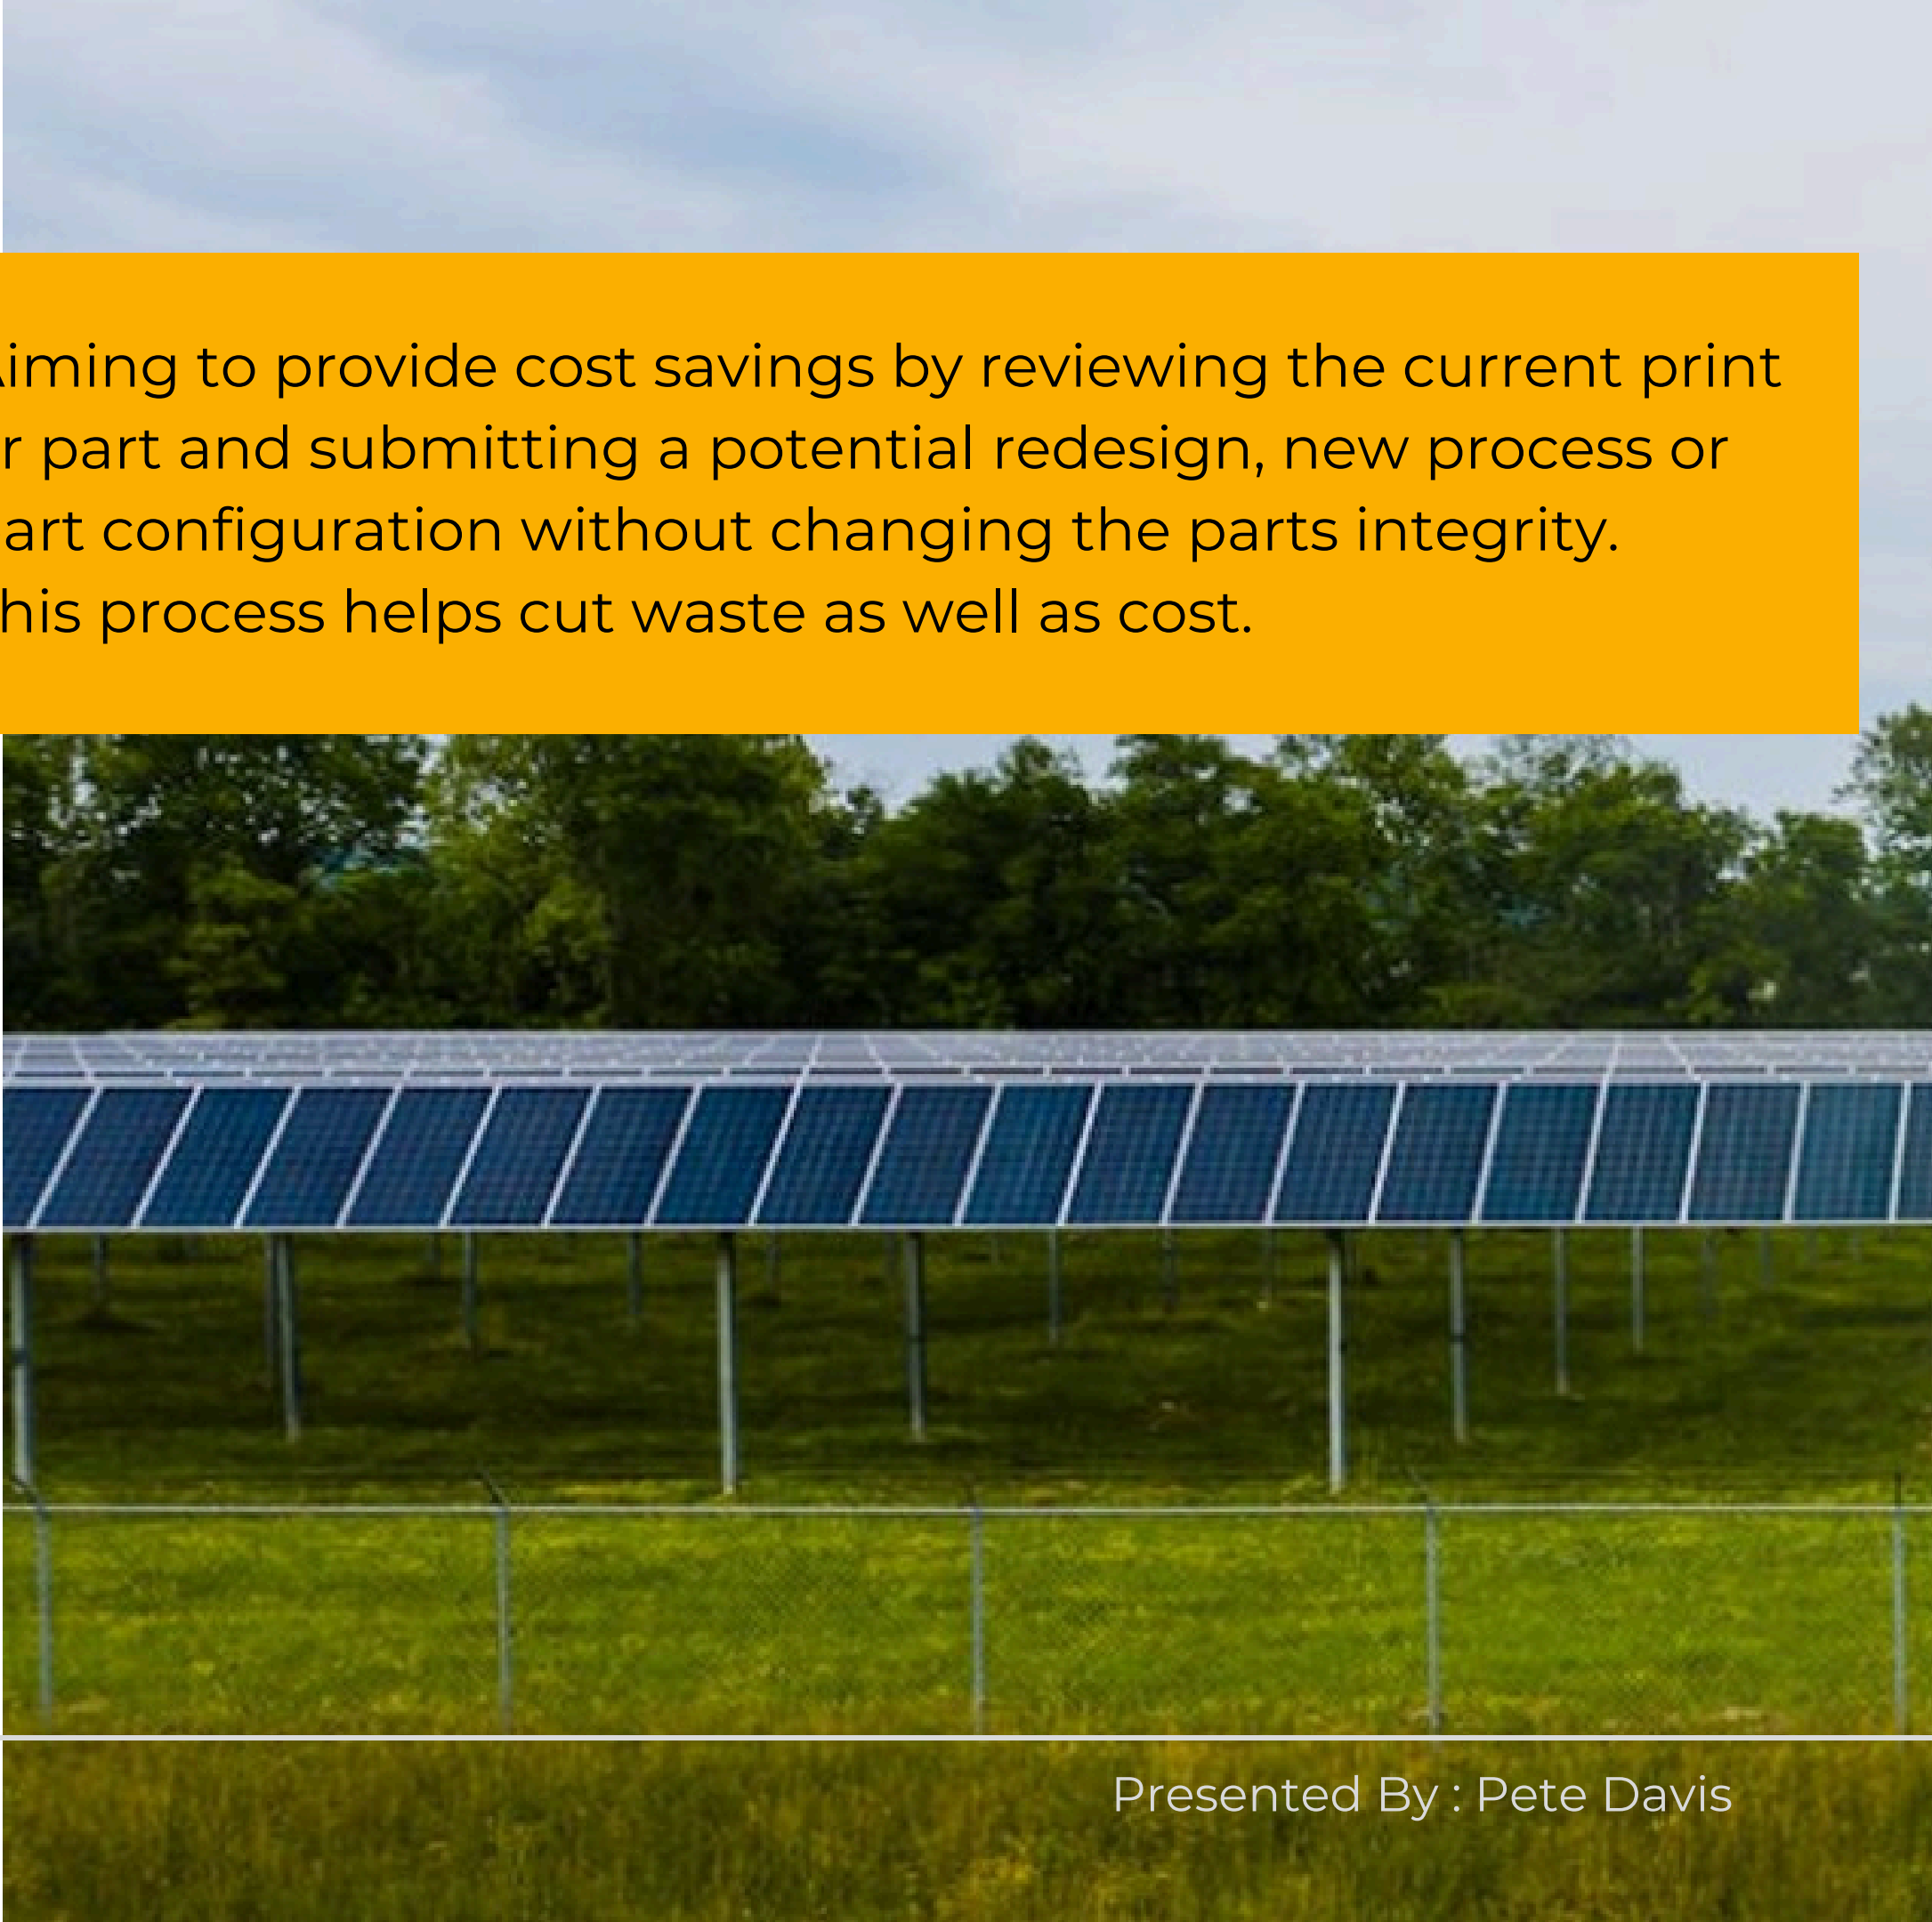

- Understand the challenge
- Develop innovative designs through R&D
- Manufacture to the highest standards
- Deliver and support customers through implementation

Aiming to provide cost savings by reviewing the current print or part and submitting a potential redesign, new process or part configuration without changing the parts integrity. This process helps cut waste as well as cost.

Building a Greener Future
